

Introducing Ageing without Children A half day workshop

There are now over 1 million people aged over 65 in the UK who have never been parents, and this will double to 2 million by 2030.

Understanding what it means to be ageing without children and how it affects people in later life is going to be crucial for individuals and for organisations who plan and commission and deliver services.

This short workshop will introduce you to the topic of ageing without children, the impact it has on individuals, services and the community and what changes need to be made.

**Thursday 29th November 10am –1pm
